

"Teach Them To Shoot"

REMINGTON UMC

Remington
22 Caliber Rifles

THE American father today has pretty much forgotten the old adage that any chance rifle "will do" for his boy. The known facts about this point are strongly in favor of Remington UMC in the 22 caliber arm as in the big game rifle.

Every year, thousands of boys the nation over are given a Remington UMC 22 Cal. Rifle and are taught how to use it by their fathers. It's a good investment with any developing youth.

Remington UMC 22 Cal. Repeating Rifle with the famous Remington UMC Slide Action and Solid Breakdown mechanism. It has 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

Remington UMC 22 Cal. Repeating Rifle with the famous Remington UMC Slide Action and Solid Breakdown mechanism. HAPPENINGS OVER IN EMERY COUNTY

MUCH DAMAGE IS DONE BY THE LATE STORMS.

Socialists Name Excellent Tickets For County Offices and Have Hopes of Electing Some of the Candidates—Going and Coming of the People of the "Kingdom" to the South.

CASTLE DALE, Oct. 22.—A great deal of damage and some good has been done by the late rains. The ground is now in good condition for fall plowing and if the railroad company had seen fit to come and see our best products at the county fair we no doubt would have been plowing for the 1917 best crop are this, but fate rather seems to be against us in that respect, or at least the railroad company is.

The stork made a comparatively short trip yesterday in company with Dr. J. C. Graham and left the biggest kind of a big baby girl at the home of Mr. and Mrs. H. A. Wickman. Mother and babe are coming along nicely.

Mr. and Mrs. Mark Tuttle have been busy the past few days shelling beans with friends in Orangeville and Castle Dale. Mr. Tuttle secured the people of Emery county as county clerk some years ago and is now employed as chief deputy in the state auditor's office.

Considerable interest is being taken in the big dance which is to be given in Academy Hall the night of election. The returns from county, state and nation will be relayed up there as soon as they come in and the affair promises to be the gathering place for all those interested in the election from all over the county.

Not so much doing in politics this past week. Wilson club women and their friends held a meeting in the court house last night while their brethren of the opposite political faith held forth at Ferron. Lincoln G. Kelly, republican candidate for secretary of state, and the county candidates attended the latter meeting.

A. W. Magnusen is happily reunited to his first love, the Tuesday having been performed last Tuesday following the securing of a license from Cupid Peaseck. The first Mrs. Magnusen (which are one and the same) had been living in Southern California until some four months ago when she and her daughter returned to Castle Dale to make their home—with the above happy result.

The Orangeville school teachers visited the local schools the first of the week and the local teachers in turn visited the Huntington schools the following day.

Mrs. Hyman Lemmon of Payson visited with her niece, Mrs. G. F. Hickman, in Castle Dale and her sister-in-law, Mrs. Lee Lemmon, in Huntington, Thursday and yesterday.

Mrs. Wanner Hill, who is here from Idaho for a short visit with her parents, Mr. and Mrs. Ned Olsen and family, was made happy in the arrival of a fine baby boy last Monday.

Mrs. Amelia Jones was tendered a most enjoyable birthday party yesterday afternoon by a number of her friends.

Mrs. Nepti L. Williams was hostess to a number of lady friends at her home yesterday—the occasion being her birthday.

Mr. H. Browning, county democratic chairman, attended a meeting of the Utah Chapter of the American Mining Congress in Salt Lake City the first of the week.

Some eight or ten local stinkards bled for their securely staked deer last Sunday, but don't report much luck in finding the special fine fawns they were after.

Prof. Robert H. Stewart, county farm agent, was in town yesterday accompanied by H. C. Russell, an expert veterinarian, who may locate at some convenient center in the county.

The Mutual Improvement associations of the Orangeville ward will give a big Halloween party on the night of Tuesday, October 31st, and the event is likely to be one of the events of the coming season. The latest in special Halloween decorations will be secured from Chicago and everything possible done to make the event one huge success. Candies and refreshments will be served in pumpkin loaves, and fortune telling will be done by the real thing in witches. A dance for children will be given at 1 o'clock of the afternoon.

Toy Cowley and family of Storrs visited in Cleveland last Tuesday.

Mrs. Jane Lister of Cleveland visited last week with her daughter in Helper.

Mr. and Mrs. Ray Cowley, who have been visiting at Cleveland for some time, have gone to Sunnyside to live.

Mr. and Mrs. John E. Ward and Mrs. Ivan Johnson of Cleveland were conference visitors at Salt Lake City.

If enough students can be procured, Mrs. Jessie Jenkins will teach a class in shorthand at Cleveland. Mrs. Jenkins has taught in the Brigham Young University and is a very efficient teacher.

Teasing open of grain stacks and shoveling in the yard is the order of the day now at Cleveland, the recent rains having done much damage. A great deal of third crop hay having been cut and piled is now left to rot in the fields.

Mr. and Mrs. Ephraim Wilcox lately welcomed a new baby at their home. It is a fine boy.

J. K. Reid and wife and party of the family returned last week to Orangeville from Mantt, where they were called to lay in its last resting place the remains of John P. Reid, the father of the former, who passed from this mortal sphere on the 7th inst. after ninety-two years of useful living.

FALL PLOWING IS NOW COMING ON

Prof. R. H. Stewart makes a few timely suggestions.

FARMERS' ROUNDUP AND HOUSEKEEPERS' CONFERENCE CALLED FOR HUNTINGTON IN EMERY COUNTY THE COMING MONTH—POTATO CROP GREAT IMPROVEMENT OVER LAST—SMALL FRUITS.

"I urge on visiting through Carbon and Emery counties that not many farmers are doing fall plowing," writes Prof. Robert H. Stewart, county agricultural agent, to The Sun. "This is a very good fall for plowing, as the long rain storms have dampened the soil up sufficiently well to make plowing good. If you do not see your seed this fall leave the land as plowed—that is, do not harrow or float it, but leave it open so the winter moisture will collect in the soil and not run off. Also the frost is better assisted in its action and the soil is better aerated. Many farmers have asked me relative to the prices of potatoes. Having my advice on the daily quotations I resolve, I would suggest that the farmers be not in too great a hurry to sell their potatoes for a cheap price. Potatoes are quoted at \$1.85 per hundredweight in Idaho and as high as \$2.15 per hundredweight on the Eastern market. It is estimated by some that the potato yield is twenty million bushels short this year in the United States, and that the demand is equally as great. Those whom I have cooperated with in having a big percentage of clean seed this year, will be able to get larger prices for their potatoes for seed this coming spring.

"Next month the extension division of the Utah Agricultural College will hold Carbon and Emery counties by giving to another farmers' roundup and housekeepers' conference. It will be held in Huntington for the two counties from the 15th to the 18th of November, inclusive. Also one night session will be held in Price Monday evening, November 18th, and two day sessions in Wellington on November 14th. This is a very great privilege that the Utah Agricultural College is giving us in addition to the many others which have been granted since the establishment of the county agent here. Some of the speakers who will be in attendance are Dr. John Fredrick, Miss Gertrude McChesney, Dr. Hill, Dr. Harris, Prof. Louis Windsor, George Austin, Miss Louise Parry, Prof. George Chiles, Ben H. Blodgett, Dr. George Thomas, Carl H. Marcum, Dr. H. E. Cleveland and Dr. H. B. Gardner. The housewives, the school students and all should take advantage of this great school. Everybody should for better agricultural methods and better farm homes. I expect to have the program fully arranged for next week's papers.

"We are always glad when we have new crops in our counties that give promise of great value. This year our potato crop is a great improvement over any past season. Many patches are almost free from disease and are giving good yields. Our sugar beet fields are yielding well and this year are setting excellent prices. The increased yields are giving good profits to the farmers this year as the prices are good. The small berry business seems to be one of great promise in this part of the state. The

WOOLMEN TO MEET

January Next the Date Fixed and Salt Lake City the Place.

Promising an attendance of more than one thousand wealthy sheepmen from the immediate West and from many points in the United States, the annual convention of the National Woolgrowers' association will be held in Salt Lake City, January 11, 12 and 13, 1917. It was announced yesterday by R. W. McClure, secretary of the association. Announcement also was made that the national association will give a ram sale in Salt Lake City next August.

The selection of Salt Lake City for the convention is made by the official board of the association after a consideration of the application of a number of other cities for the convention. Many previous conventions of the association have been held in Salt Lake City and it is explained that the fact that it is the center of the sheep industry makes it not only convenient, but of great importance as a wool convention city.

Members of the official board who selected Salt Lake City for the convention city are E. J. Hagenbarth, Salt Lake City, president; M. I. Powers, Flagstaff, Ariz., vice president; and F. D. Miracle, Helena, Mont., treasurer. McClure reports that much satisfaction has been derived from the ram sale which was held at the state fair grounds during the latter part of August and early in September and that sheepmen throughout the Intermountain West are enthusiastic for a repetition of the sale in Salt Lake City.

The current number of the National Woolgrower, which has just been issued, gives a summary of the most recent prices paid for graded wool from the important woolgrowing states. Choice three-eighths blood wool from Utah is shown to have commanded a price of thirty-six cents a pound, while thirty-seven cents was paid for the same quality of Colorado wool. It is shown that Colorado choice three-eighths-blood commanded forty cents a pound, while thirty-seven cents a pound was received from the same grade in Wyoming.

Prediction was made recently by McClure that wool will command an increase of from five to six cents a pound shortly before the April clip.

FOREST SERVICE EXAMS

Several Splendid Jobs Open For Live Ones In Government Service.

The United States civil service commission announces an open competitive examination for forest ranger on October 30th. Within the Intermountain forest service district the examination will be given at Kohorans, Escalante, Kanab, Logan, Munk, Panguitch, Provo, Richfield, St. George, Salt Lake City and Vernal. Competitors will be examined as to their education and experience and by a set of practical questions on pertinent subjects.

Applicants must be between the ages of 21 and 40 years. From the register of eligibles resulting from the examination, appointments will be made to fill vacancies in this position as they may occur in the forest service within the state in which the examination is held. The contract salary is from \$1198 to \$1299 per year. Full information regarding the examination and application blanks may be secured from the forest supervisors at the above named points, or from the civil service commission at Washington, D. C.

While the position of forest ranger calls for a high degree of mental and physical ability, and means hard work the year round, the work has many attractions for the young men of the West, who take an interest in the protection and development of the vast forest resources of the region, and who can not only meet present requirements but keep up with the constantly advancing standards of public service demanded from men in this capacity.

FOR SALE OR TRADE—SIX HORSE Fairbanks, Morse & Co. gasoline engine as good as new, together with shafting, belting, pulleys, etc. May be seen at The Sun office.

NOTICE OF APPLICATION FOR UNITED STATES PATENT, 813250—IN THE UNITED STATES LAND OFFICE, SALT LAKE CITY, UTAH, OCT. 22, 1918. NOTICE HEREBY GIVEN THAT THE Utah Asphalt Company, a corporation, by J. H. H. Richards of Salt Lake City, Utah, has made application to the United States for a patent for the Land Chances, Survey No. 1 and Sunnyside No. 2 and consolidated placer mining claims, bearing sand asphaltum and other hydrocarbons, situated in the Tintic-Hill and Mining district, Carbon county, Utah, consisting of four hundred and six-tenths acre, said claim being described as follows, to-wit:

The Land Chances claim being the west half (SW 1/4) of the southeast quarter (SE 1/4) and the east half (EW 1/4) of the southeast quarter (SE 1/4) of Section Four (4) of Township 14 North, Range 14 East, Salt Lake base and meridian.

The Sunnyside No. 2 claim being the east half (E 1/2) of the northwest quarter (NW 1/4) of Section Four (4) of Township 14 North, Range 14 East and the southwest quarter (SW 1/4) of the southeast quarter (SE 1/4) of the southeast quarter (SE 1/4) of Section Three (3) of Township 14 North, Range 14 East, Salt Lake base and meridian.

The original location notice of the said Land Chances claim being of record in the office of the county recorder of Carbon county, Utah, in Price in the county and state records, in Book 8, Page 199; the original location notice of the Sunnyside No. 2 claim in Book 14, Page 244 and the original location notice of the Sunnyside No. 1 claim in Book 15, Page 509 of said records as aforesaid.

The nearest known location to the said consolidated Land Chances Survey No. 1 and Sunnyside No. 2 claim is the Black Jack claim, Survey No. 2554, being part of said group as heretofore patented and the Sunnyside No. 2, unpatented.

I direct that this notice be published in The Sun at Price, Carbon county, state of Utah, for a period of nine consecutive weeks.

GOULD R. BLAKELY, Register.

A. V. Taylor, Claimant's Attorney. First published, dated Oct. 27, 1918. Last Dec. 28, 1918.
